Work experience

C++ Developer Intern (InternPe, Jaipur)
2023

July 2023 - Aug

I have worked on various real- world projects assigned. My responsibilities have included analysing requirements, designing algorithms and deliver robust and scalable solutions. They assigned various tasks which have to be completed in a given time frame.

Raymond Pvt. Ltd. (AKVN,Borgaon)

July 2022

Completed internship in the instrumentation department provided valuable hands-on experience in calibration, testing, and collaborative project work. I honed my technical skills and developed a keen understanding of the importance of safety and compliance in the field.
